ACOUSTIC ROOMS SET: Working in a unique ambience

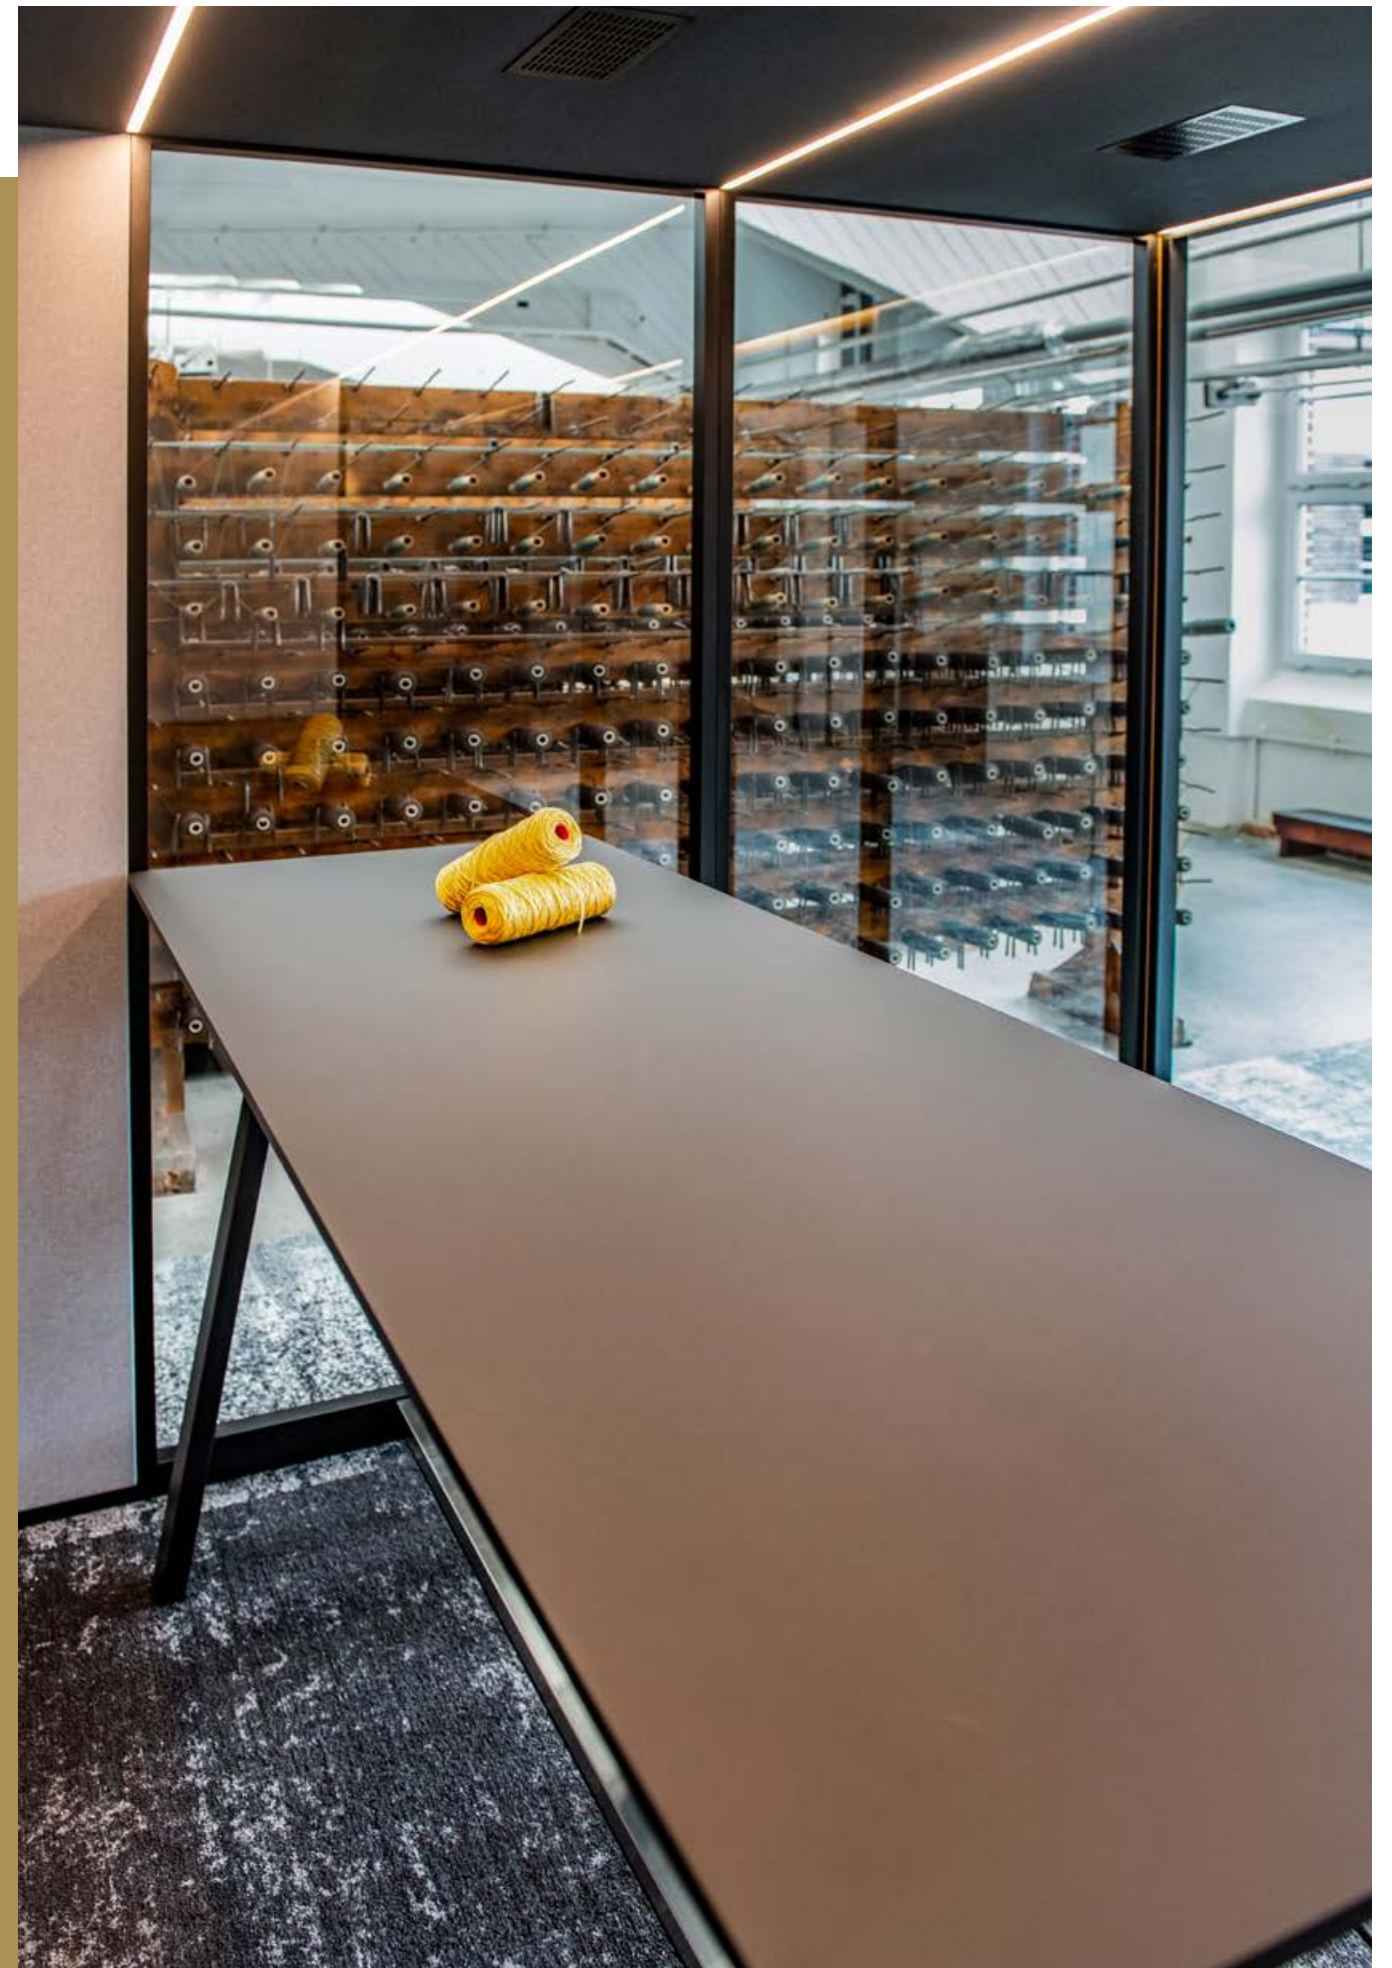

ROOMS SET is a completely free-standing room-in-room system. Due to its high acoustic effectiveness, ROOMS SET promotes concentrated work and communication among team members. Thanks to the use of textile surfaces, the flexible modular system allows numerous options for individualisation – thus creating an atmosphere that is conducive to corporate identity.

For MORE pleasant room comfort

The world around us seems to be spinning faster and faster. The demands in our private and professional lives are constantly growing. This makes us long all the more for retreats where we can relax and leave the stress activators outside for a moment. What we need is a place to be.

ROOMS SET offers precisely this kind of retreat and, with its textile, natural and sustainably produced materials, creates a relaxed, feel-good atmosphere for focused work – no matter what office space is available.

Giving rooms character.
That's ROOMS SET.

Model 300 x 300

MEET & GREET

Model 300 x 300

MEET & GREET

The multi-talent – separate and yet integrated.

Whether a small conference or a spontaneous meeting, up to 6 people can discuss projects, forge plans, collect ideas or simply enjoy a break together, undisturbed and completely relaxed.

ROOMS SET is a feeling: tangible comfort for your office.

KEEP CALM &
CALL

Functional and charming.
It's always the same: A few important details for a project still need to be discussed on the phone, but it's too noisy at the workplace – rattling printers, conversations among employees, ringing mobile phones, There's only one way to help the situation: Keep calm & call inside ROOMS SET!
